“The Cruel Madness of Love” Gayle Davis 2008-09-09 Against a backdrop of contemporary social and sexual concerns, and primal fears surrounding the moral and physical ‘degeneration’ of late nineteenth and early twentieth-century society, ‘The Cruel Madness of Love’ explores a critical period in the developing relationship between syphilis and insanity. General paralysis of the insane (GPI), the most commonly diagnosed of the neurosyphilitic disorders, has been devastating both personally and socially both to the patient and to the family. The book tells the story of the lives of four women who were diagnosed with this disease and provides an in-depth look at the scientific and moral debates that surrounded the disease. ‘The Cruel Madness of Love’ is a gripping account of the lives of these women and the people who cared for them. It is a powerful testament to the strength and resilience of women in the face of adversity.
