It will not waste your time. understand me, the e-book will certainly ventilate you extra event to read. Just invest little mature to door this on-line publication choosing our king powerful symbols in presidential politics as with ease as review them wherever you are now.

Choosing Our King-Michael Novak 1974

Choosing Our King-Michael Novak 1974

The Presidential Republic-Gary L. Gregg 1997 For two centuries, American presidents have considered themselves to be representatives of the American people. In this detailed study of presidential representation, Gary Gregg explores the theory, history, and consequences of presidents acting as representatives in the American political system. Gregg explores questions such as what it means to be a representative, how the Founding Fathers understood the place of the presidency in the Republic established by the Constitution, and the effects a representational presidency has on deliberative democracy. This important examination of the presidency’s place in our political system is essential reading for those interested in American political theory, constitutional studies, and American history.

Confession of a Catholic-Michael Novak 1985 Eighteen years after Vatican II, this preeminent Catholic author called to account the values and policy of the Catholic church, reevaluating some of the changes that he helped to effect and the impact of these changes on American Catholic life. He concluded, ‘The world and its church looks far different now in 1983 from its reality in 1965... All is not well.’ Originally published by Harper & Row in 1983.

Ritual, Politics, and Power-David I. Kertzer 1988-01-01 Examines the history and purpose of political rituals, discusses examples from Aztec cannibal rites to presidential inauguration, and argues that the use of ritual determines the success of political groups.

Washington's God-Michael Novak 2007-02-13 In Washington’s God Michael Novak-one of America’s leading neoconservative pundits and his daughter, Jana, uncover George Washington’s religious life. Finally the record is set straight on the most thoroughly misunderstood aspect of Washington’s life. The Novaks focus on Washington’s strong trust in divine Providence and see this belief as providing the unifying narrative to his monumental life.

Remaking China’s Public Philosophy for the Twenty-first Century-Michael Santos 2003 Uses the prism of “public philosophy” to examine Chinese society, modernization, globalization, and democratization as a whole.

The Joy of Sports-Michael Novak 1993-01-01 Combines an immediate enjoyment of sports with an awareness of the influence of athletic heroes on our society’s spiritual life, and relates each popular sport to the particular virtue and grace it ritualizes.

Jimmy Carter, American Moralist-Kenneth Earl Morris 1996 A biography of the former president uses interviews and research to draw a fresh portrait of the human rights activist and traces the religious and political forces that shaped him

Communication Yearbooks Vols 6-33 Set-Various 2021-11-05 The Communication Yearbook annuals originally published between 1977 and 2009 publish diverse, state-of-the-discipline literature reviews that advance knowledge and understanding of communication systems, processes, and

Screening Politics-Harry Keyesjian 2006 This reference guide provides detailed discussions of over 50 movies about American politics and politicians, from Mr. Smith Goes to Washington (1939) and All the King’s Men (1949) to Air Force One (1997) and Thirteen Days (2001).

By the Grace of Guile-Loyal D. Rue 1994 Most of the book is a provocative examination of deception, illuminating its role in the shaping of history, evolution, personality, and society. Ranging from the Bible and Greek philosophy, to Saint Augustine and Montaigne, to Galileo, Kierkegaard, and Freud, Rue shows that it may be more accurate to describe the history of our culture as a flight from deception than as a quest for truth. He turns then to the natural world to reveal how deception works at every level of life, ranging from plants that mimic dung to a remarkable African insect (Acanthaspis petax) that bedecks itself with dead ants and enters the ant colony undetected to binge at will

The Politics of Rage-Dan T. Carter 2000-02-01 Combining biography with regional and national history, Dan T. Carter chronicles the dramatic rise and fall of George Wallace, a populist who abandoned his ideals to become a national symbol of racism, and later begged for forgiveness. In The Politics of Rage, Carter argues persuasively that the four-time Alabama governor and four-time presidential candidate helped to establish the conservative political movement that put Ronald Reagan in the White House in 1980 and gave Newt Gingrich and the Republicans control of Congress in 1994. In this second edition, Carter updates Wallace’s story with a look at the politician’s death and the nation’s reaction to it and gives a summary of his own sense of the legacy of “the most important loser in twentieth-century American politics.”

New Directions in the American Presidency-Lori Cox Han 2017-10-06 Especially coming out of the landmark presidential elections of 2008 and 2016, the study of the American presidency—both as a political institution and of those who have held the office—is one of the most fascinating and dynamic fields of study within American government. New Directions in the American Presidency takes a current look at the various issues facing the contemporary presidency and provides a “state of the art” overview of current trends in the field of presidency research. This volume of original chapters by leading presidential scholars is designed to include all the essential topics covered in an undergraduate-level presidency course or a graduate-level seminar while also bringing together key disciplinary debates and treatment of important current real-world developments. Each chapter is written with students in mind so that it remains accessible, interesting, and engaging. New to the Second Edition New key chapters on presidents and political parties and presidential leadership (essential following the 2016 presidential election). A fresh approach to the President and the Constitution, and the President and domestic policymaking, are provided by new authors for these foundational chapters. All chapters have been revised with updates coming out the 2016 election, especially in relation to
presidential campaign politics, media, and the Supreme Court.

Ike the Soldier—Merle Miller 2018-04-24 From the bestselling author of Plain Speaking and Lyndon comes this “vivid and consistently absorbing record of Dwight D. Eisenhowe’s military career” (Kirkus Reviews). Bringing together thousands of hours of interviews with the men and women who were closest to him, Merle Miller has constructed a revealing and personal biography of the man who would become the supreme commander. From his childhood in Kansas to West Point, World War I, and Europe where he led the Allied Forces to a hard-won victory in World War II, Ike the Soldier goes behind the historic battles and into the heart and mind of Ike Eisenhowe. Miller has crafted the defining biography on the life of the thirty-fourth president, bringing more depth to the man many thought they knew. His strained relationships with his father, brothers, and son are brought into focus; as well as his love affair with his wife Mamie, and his relationship with Kay Summersby—his driver turned companion and confidante during WWII. “An informed and balanced tribute to a world-class leader whose remarkable character gains greater lustre with the passage of time.” —Kirkus Reviews “This is a highly enjoyable look at Ike’s personal and official relationships with the people most important to him during the first 55 years of his life, including family, Army and Allied colleagues and heads of state.” —Publishers Weekly

Civil Liberties—Stephen L. Washy 1977 And Kaye M. Wright.

In Gods We Trust—Thomas Robbins 2017-07-12 Much has changed since publication of the first edition of this established text in the sociology of religion. Revised and expanded, this edition emphasizes new patterns of religious change and conflict emerging in the United States in the latter part of the twentieth century. Leading scholars describe and analyze developments in five main areas: The fundamentalist and evangelical revival; challenge and renewal in mainline churches; spiritual innovation and the so-called New Age; women’s movements and issues and their impact; and politics and civil religion. Chapters include an examination of religious movements’ responses to AIDS; Christian schools; quasi-religions; healing rites and goddess worship; recruitment of women to charismatic and Hassidic groups; televangelists and the Christian Right; racist rural populism; contemporary Mormonism and its growth; cults and brainwashing; Jonestown; dissidence in the Catholic church; and trance-channeling, among other topics. A new introductory chapter by the editors establishes an integrating framework in terms of three themes: increasing conflict and controversy associated with American religion; increasing focus on various forms of power in American religion; and challenges to models of secularization and modernization inherent in religious revival, innovation, and politicization. A concluding chapter by the editors looks at new trends and assesses their possible impact in coming years. Like its predecessor, this outstanding collection is a significant contribution to the literature as well as a valuable resource for the classroom.

Housing and Planning References—1974

Why Watergate—Paul J. Halpern 1975

Will It Liberate—Michael Novak 1991-06-19 Michael Novak's work is challenging. We often disagree sharply in our interpretations and assessments of liberation theology, but he raises important issues which call for clarification and response.

The Anti-Intellectual Presidency—Elvin T. Lim 2008-06-16 Why has it been so long since an American president has effectively and consistently presented well-crafted, intellectually substantive arguments to the American public? Why have presidential utterances fallen from the rousing speeches of Lincoln, Teddy Roosevelt, Wilson, and FDR to a series of robotic repetitions of talking points and sixty-second soundbites, largely designed to obfuscate rather than illuminate? In The Anti-Intellectual Presidency, Elvin Lim draws on interviews with more than 40 presidential speechwriters to investigate this relentless qualitative decline over the course of 200 years, in our presidents’ ability to communicate with the public. Lim argues that the ever-increasing pressure for presidents to manage public opinion and perception has created a “pathology of vacuous rhetoric and imagery” where gesture and appearance matter more than accomplishment and fact. Lim tracks the campaign to simplify presidential discourse through presidential and speechwriting decisions made from the Truman to the present administration, explaining how and why presidents have embraced anti-intellectualism and vague platitudes as a public relations strategy. Lim sees this anti-intellectual stance as a deliberate choice rather than a reflection of presidents’ intellectual limitations. Only the smart, he suggests, know how to dumb down. The result, he shows, is a dangerous debasement of our political discourse and a quality of rhetoric which has been described, charitably, as “a linguistic struggle” and, perhaps more accurately, as “dogs barking idly through endless nights.” Sharply written and incisively argued, The Anti-Intellectual Presidency sheds new light on the murky depths of presidential oratory, illuminating both the causes and consequences of this substantive impoverishment.

This Hemisphere of Liberty—Michael Novak 1992 The subject of this book is how to build institutions of liberty in this hemisphere of the Americas.

The Symbolic Presidency—Barbara Hinkley 1990 Describing how American presidents present themselves and their governments to the people, this text analyzes the entire staging of a presidential appearance. Focusing on the modern presidents, from Truman to Bush, the author’s research is rooted in the Public Papers of each president.

On Two Wings—Michael Novak 2010-01-01 The leaders of the American Revolution, unlike the leaders of the French revolution, did not set out to erase religion. Indeed, the very first act of the Continental Congress was to pray to Divine Providence in the face of the British bombardment of Boston. In establishing a new model of self-government, the Founders believed that they were not only acting according to reason and common sense, but also obeying a religious duty. Benjamin Franklin proposed as their motto: “Rebellion against tyrants is obedience to God.” In telling the story of the forgotten—if not deliberately ignored—role of faith in America’s beginnings, Michael Novak probes the innermost religious conviction of Washington, Jefferson, Madison and other of our Founders. He shows that while the American eagle could not have taken flight without the empirical turn of mind embodied in John Locke’s teaching on the ends of government and the consent of the governed, the men who made America also believed that liberty depends as much on faith as on reason. In the course of his illustrious career, Michael Novak has written several prize-winning books on theology and philosophy. In On Two Wings he has created a profound mediation on American history, and on human nature and destiny as well.

Toward a Theology of the Corporation—Michael Novak 1990

Choosing Presidents—Michael Novak 1992 In Choosing Presidents, Novak uses the election of an American president as a means to dissect the symbols of our national life and politics, exposing many as distorted perceptions of American realities. This work is a guide to the complexities of electoral politics and a lasting contribution to our understanding of the presidency.The author is Michael Novak.

On Cultivating Liberty—Michael Novak 1999 Examines the family, welfare reform, free markets, self-government, and the founding of America in a defense of a free and virtuous society

Writing from Left to Right—Michael Novak 2013 The author recounts the transformation of his political views against a backdrop of major historical events, explaining how he came to believe that his Catholic ethics and progressive goals could be better achieved through right-wing policies.

The Spirit of Democratic Capitalism—Michael Novak 1991 ...a major work for our times. —Irving Kristol, The Public Interest

Newsletter—Rhetoric Society of America 1968

On Corporate Governance—Michael Novak 1997 Two great achievements - raising up the poor and animating civil society - provide powerful moral claims for business corporations. But this book argues that many new schemes for corporate governance jeopardize these achievements.

The Future of the Corporation—Michael Novak 1996 This book reviews the long history of the corporation and examines the central role of business
and economic growth in the strengthening of civil society and democracy.

- The Fire of Invention, the Fuel of Interest - Michael Novak 1996
  This book discusses the moral and practical foundations of the corporation and corporate governance.

- The Fire of Invention - Michael Novak 1997
  Discusses how corporations are changing the shape of business for the 21st century.

- The Universal Hunger for Liberty - Michael Novak 2004-09-21
  Presents the theory that the Islamic religions have a basic belief in political, economic, and religious liberty, and that this belief can be a starting point for Islamic nations and the West to work toward peaceful coexistence.

- Social Justice Isn’t What You Think It Is - Michael Novak 2015-11-03
  What is social justice? For Friedrich Hayek, it was a mirage—a meaningless, ideological, incoherent, vacuous cliché. He believed the term should be avoided, abandoned, and allowed to die a natural death. For its proponents, social justice is a catchall term that can be used to justify any progressive-sounding government program. It endures because it venerates its champions and brands its opponents as supporters of social injustice, and thus as enemies of humankind. As an ideological marker, social justice always works best when it is not too sharply defined. In Social Justice Isn’t What You Think It Is, Michael Novak and Paul Adams seek to clarify the true meaning of social justice and to rescue it from its ideological captors. In examining figures ranging from Antonio Rosmini, Abraham Lincoln, and Hayek, to Popes Leo XIII, John Paul II, and Francis, the authors reveal that social justice is not a synonym for “progressive” government as we have come to believe. Rather, it is a virtue rooted in Catholic social teaching and developed as an alternative to the unchecked power of the state. Almost all social workers see themselves as progressives, not conservatives. Yet many of their “best practices” aim to empower families and local communities. They stress not individual or state, but the vast social space between them. Left and right surprisingly meet. In this surprising reintroduction of its original intention, social justice represents an immensely powerful virtue for nurturing personal responsibility and building the human communities that can counter the widespread surrender to an ever-growing state.

- The Politics of the Presidency - Norman C. Thomas 1993
  Focuses on how presidents govern; shows how the chief executive succeeds more though skilled political leadership than the assertion of constitutional prerogatives.

- Freedom with Justice - Michael Novak 1984
